

Adopt a Doggie was founded by people near and far who deeply strive to provide loving, happy and healthy homes for doggies from all over the world. We strive to save each and every dog, while we are a no-kill rescue group, we also do not believe that every dog makes a good pet. We see hundreds if not thousands of dogs each year that are homeless and helpless. Our goal and mission is to save the doggies that could be loving, happy and healthy doggies and find them safe homes. We will if we could save every stray or helpless doggie we encounter but we are a small organization and work with a very small budget, usually from our own pockets.

ABOUT OUR DOGGIES

Doggies available through Adopt a Doggie are all healthy dogs simply looking for loving forever homes. We have spayed or neutered each doggie (if age appropriate), and each doggie has received up to date vaccinations and have micro-chipped. Our doggies range in age from puppies to older, more mature dogs. Because all of our dogs are rescued, we usually have a diverse array of available doggies, but it is all based on rescue efforts, so if you see a doggie you fall in love with, make sure to contact us right away, as some doggies, especially puppies do not last long.

ABOUT OUR ADOPTION PROCESS

We believe that each and every doggie adopted through Adopt a Doggie deserves a loving, healthy and happy forever home. As we strive to accomplish this mission, we may need to learn about you and your family. We want to make sure you, your family and the doggie are a great fit. Once in a while, when we get to know a family we may sometimes suggest a different doggie that may be a better fit. If you are curious why we suggest a different doggie, just ask! Also, sometimes a doggie you may have inquired about already has a pending adoption or has received multiple applications, so we may suggest a different doggie then as well. We are just trying to find you a great doggie to love forever. So we will ask you to fill out an application, chat with us on the phone and send photos of your home or allow us to stop by for a quick home visit. If you have any questions along the way do not hesitate to ask one of our staff or volunteers.

ADOPTION POLICIES

Just as doggies come in all shapes and sizes, we know families do as well. We are an equal opportunity rescue group open to everyone, whether you live by yourself or in a home of dozens!

We are there for you and your doggie for the doggie's lifetime, if you ever need anything, or worst case, can no longer care for your forever doggie, please contact us.

We strive to ensure every doggie available on our website or through a pet finding service is available for adoption, but we cannot guarantee that is always the case as sometimes doggies receive multiple applications as soon as they are posted. But ask us, we will always try to find a loving doggie that we think is a great fit.

By filling out an application, you are simply inquiring about a dog. You are not under any obligation until you choose to move forward with the adoption after we confirm your home is a good fit and the doggie is available.

We allow for a 30-day settling in period for you, your family and new doggie. If something is not as you were hoping, contact us. In the vary majority of the cases, the perceived issues can be alleviated or worked out. However, if even after working with us to try to make a great fit, we provide for refunds if necessary. (See specific details on adoption contract).

Our U.S. headquarters is based in Northern California, near San Francisco in the bay area. However, if you live outside of the bay area, or even outside of California, that does not mean we cannot work with you to still adopt one of our available doggies. That is one of the great advantages of rescuing doggies from other places!

If you have any questions, just contact us!
